Detail-oriented software developer with a Post Graduate Diploma in Advanced Computing and practical experience in building modern web applications. Seeking a Software Engineering position to apply strong problem-solving skills, a solid technical foundation, and a passion for continuous learning.

ACADEMICS PROJECTS

1. The Wild Oasis – Full-Stack Hotel Management Web App

- **Description:** Designed and built a full-featured, production-grade hotel management app with an Admin dashboard, real-time bookings, and a Supabase backend. Includes full CRUD, data visualizations, authentication, and responsive design
- **Frontend:** Built with **React.js**, **React Router**, **React Query**, **styled-components**, and **Recharts**. Created a modular and dynamic UI with forms, filters, and interactive data grids.
- **Backend:** Integrated **Supabase** for PostgreSQL database, image storage, row-level security (RLS), and authentication handling.
- **DevOps:** Deployed on **Vercel** with automated CI/CD pipelines. Managed environment variables securely via Supabase and Vercel.
- **Tooling & Optimization:** Achieved ~10% performance improvement via **code splitting**, lazy loading, and state caching. Used **Vite**, **ESLint**, and **TanStack DevTools** for debugging and developer experience.
- **Project Management:** Managed with **Jira** (Kanban board) using **Epics**, **Tasks**, **Subtasks**, **Bugs**, and simulated client collaboration. Full documentation maintained in **Notion**.
- **Version Control** - [GitHub Repository – The Wild Oasis](#)
- **Live Demo** - [The Wild Oasis](#)

2. Scrap Savvy | Waste Management System

- **Description:** Designed and implemented a full-stack web application to manage scrap collection and recycling efficiently.
- **Frontend:** Developed a responsive user interface with **React.js** and **Bootstrap** for seamless user experiences.
- **Backend:** Built RESTful APIs using **Spring Boot** for robust data handling.
- **Database:** Utilized **MySQL** for flexible and efficient data storage and retrieval.
 - **Version Control** - [GitHub Repository-ScrapSavvy](#)

3. Online Vegetable Store | E-commerce Platform

- **Description:** Engineered and deployed a **full-stack e-commerce platform** enabling digital transformation for local vegetable vendors, increasing their monthly revenue by 45% and handling 1000+ daily orders.
- **Frontend:** Built responsive user interface with **React.js**, **Redux**, and **Bootstrap**, implementing features like real-time inventory tracking and shopping cart, achieving 99% mobile responsiveness.
- **Backend:** Developed **RESTful APIs** using **Spring Boot** and **Node.js**, managing secure user using **JWT** authentication, payment processing, and order management with 99.9% uptime.
- **Version Control** - [GitHub Repository – Online Vegetable Store](#)

EDUCATION

- **Post Graduation Diploma (2024)**
Stream: Diploma in Advance Computing (DAC)
Percentage: 57.13%

- **Bachelor of Technology (2019 to 2023)**
Stream: Mechanical Engineering
CGPA: 8.14 (First with Dist.)
- **Diploma In Engineering (2017 to 2019)**
Stream: Mechanical Engineering
Percentage: 75.18% (First with Dist.)
- **HSC (2017)**
Percentage: 58.46%
- **SSC (2015)**
Percentage: 83.80%

EXPERIENCE

Intern – Harshad Enterprises | Jan 2023 – May 2023

- Gained hands-on experience with **MicroStation**, a CAD software used for creating 2D and 3D designs.
 - Utilized ProjectWise for **project management**, collaboration, data management, and workflow automation.
 - Worked with **Newforma**, a project management tool for managing project information, collaboration, and workflow automation.
 - Assisted in streamlining project workflows and improving data handling processes within the team.
- Software Proficiency: AutoCAD, CATIA V5, MicroStation, ProjectWise, Newforma**

PROFESSIONAL SKILLS

- **Programming Languages:** C/C++, Java.
- **Frameworks:** Bootstrap, Spring / Spring Boot, React.js, Next.js.
- **Testing:** Automation Testing using Selenium, Postman.
- **Database:** MySQL, MongoDB, Firebase (Basic), Supabase.
- **Tools/Technologies/ Management:** Git/GitHub, Docker, Jenkins, Software Project Management.
- **Data Structure and UI/UX Web Designing:** Data Structure, HTML, CSS, JavaScript

PERSONAL SKILLS

Strengths: Team player, Leadership, Fast Learner, Time Management, Strong Communication Skills, Self Disciplined.

CERTIFICATION

- **React Course 2025: React, Next.js, Redux & More** | Issuer: Udemy ,Date: July 2025| Certificate ID: UC-5bac4f50-f0e8-4aff-a27c-9454f106bda2 | [Certificate Link](#)
- **HackerRank SQL Certification** | Issuer: HackerRank ,Date: January 16, 2025| Certificate ID: 63482eba0267 | Skill: MySQL | [Certificate Link](#)
- **Web Development Fundamentals Certification – IBM SkillsBuild** | Issuer: IBM SkillsBuild , Date: January 2025|Certificate ID: 7caf73aa-7132-433c-98b5-ff033eb14d13 | Skills: Web Development, HTML, CSS, JavaScript, Front-End Development | [Certificate Link](#)
- **Post Graduate Diploma in Advanced Computing – CDAC Issuer:** Centre for Development of Advanced Computing (CDAC) | **Date:** August 2024 | [Certificate Link](#)
